

I listen to a radio station, K-LOVE. It is an uplifting, motivating station. I understand there is a chance it could be displaced by an LPFM broadcaster with other programming. I think this would be detrimental to the San Antonio area. In today's market, there needs to be a chance to listen to family friendly, encouraging radio. I believe so strongly in this that I support K-LOVE financially. I believe this station helps to counteract much of the filth that can be heard on the air today. It encourages people to be their best, to treat each other with kindness and compassion. It points to a higher good. Please don't allow this station to be replaced. There are very few opportunities to hear this kind of material on the radio. Please don't take it away. Thank you for your consideration.
